

Test Report

No.: 21155559-001
Order no.: 1065784

Client: Karl Simon GmbH & CO. KG
Sulgener Str. 19 - 23
78733 Aichhalden

Object: Damping system "SLIDIX T40" for sliding door fitting

Commission: Test of fitness for use and mechanical safety acc. to
DIN EN 15 706

Findings:

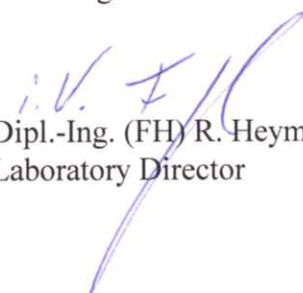

The damping system SLIDIX T40 for sliding door fittings was subjected to comprehensive test in accordance with DIN EN 15 706 level 3. The main points of the testing were the serviceability, the durability and the dynamic resistance.

The maximum permissible door weight was specified by the manufacturer as 40 kg. The durability test was carried out with 40,000 cycles.

The damping system SLIDIX T40 functions reliably after the durability test with 40,000 cycles. In summary, it was found that the requirements of DIN EN 15706 level 3 are **fulfilled**.
